9. JUDGES AND JUDGING

The judging panel is comprised of renowned dance experts (judges, coaches, choreographers), both national and international, picked based on their credentials by the Organizer. Appointed judges are experts from difference dance genres.

Each category is judged by at least 5 judges, specialized for the dance discipline they have been delegated to judge.

Judges evaluate each routine using points from 1 - worst to 10 - best in the following parameters:

- Technique
- Music and rhythm
- Interpretation
- Choreography
- Impression

The final result is the arithmetic mean of the scores that have been assigned by all the judges, where the best and worst scores for each evaluated parameter have been discarded.

The winner in each category is the routine that has been evaluated with the highest number of points. If two or more routines reach the same number of points, the winner is the routine that has the highest number of points in the technique parameter. If it is not possible to determine the winner even after that, the deciding factor become the highest number of points in parameter music and rhythm, then interpretation, choreography and lastly also synchronization. If after the mentioned order of parameters, it is still not possible to determine a winner, best routines share the first place.
